

Extend your vision.

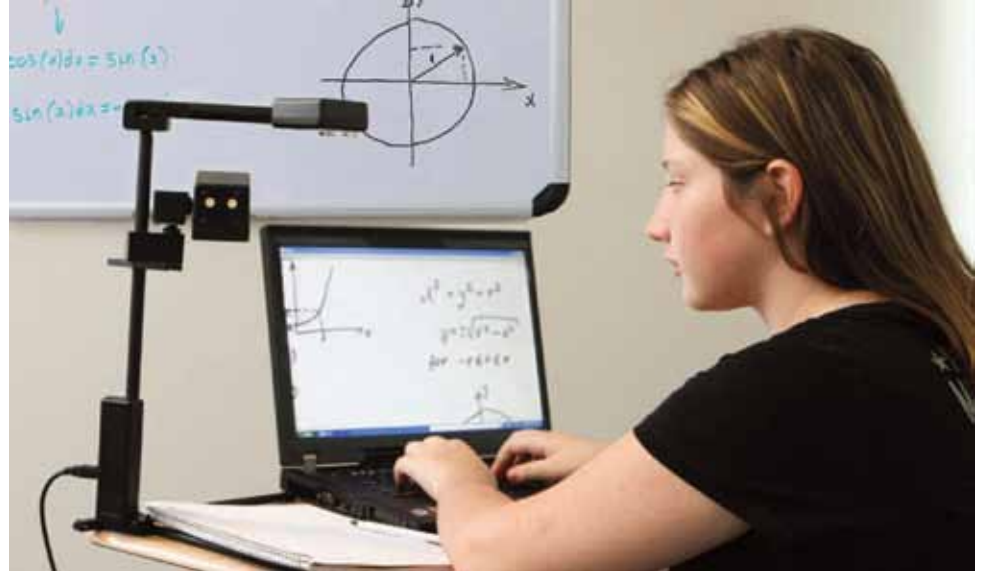

The ultimate productivity tool for students and professionals.

Zoom-Twix is your instant scanner, reader and magnifier in one portable device.

Information? Have it your way, on your terms, when you want it with Zoom-Twix.

- Take your text with you to listen or read at your leisure
- Wraps magnified text within the screen
- Take exams and fill out forms under magnification
- View snapshots of blackboards, whiteboards, people, environments and objects whenever, wherever you want
- Voice indicators make it simple to operate

Whether you want to move up the corporate ladder or move to the top of your class, Zoom-Twix can help.

Zoom-Twix takes the easy to use proven technology of Zoom-Ex and does it one better by adding a zoomable auto-focus camera to capture what's on a blackboard, whiteboard, on your desk or in the room – at any zoom, all controlled from your laptop's keyboard.

Two cameras are better than one.

Camera 1 – scans and magnifies any printed material to your computer. You can listen to it privately, or while it reads out loud, or even save it for later.

Camera 2 – zooms up close and auto-focuses to capture images from the blackboard, whiteboard or your surroundings. Toggle in a single click back and forth between the two images. Save the images, or text and take them to study and review wherever and whenever you want. You can also point the camera down to magnify your work.

We'll turn you into a fast learner a lot easier than you'd think.

Thanks to our patented motion detector, you can scan an entire book at 20 pages per minute without pushing a button – all you have to do is turn the pages. Scan odd pages separately from the even ones, scan upside down, scan both pages at time – our software will put everything in order. Convert any printed text into multiple accessible formats like speech, large print, sound file, text file, etc. – in seconds.

Minimum System Requirements

- An IBM compatible personal computer
- 1.4 GHz Pentium or equivalent AMD processor
- 1GB RAM memory
- 1GB free space on hard drive
- Two high speed USB 2.1 ports
- Microsoft Windows® XP, Windows® 7

Features

Lightweight and Portable: Weighs just two lbs and folds like a tripod to travel in your laptop bag

Easy: Place your printed material under the Zoom-Twix camera and press a key on your keyboard. Within a few seconds your document is read aloud

Flexible and Adjustable: Alter reading speed, screen contrast and font size to your preferences

Helpful: Highlights words as they are read

Useful: Enables user to print large font books

Fast: Scans up to 20 pages per minute

Accommodating: Place your document upside down, in landscape position, etc. Orientation of the page does not matter

Easy Scanner: Allows you to keep books bound and intact

Efficient: Provides fast forward and rewind capabilities

Multi-Lingual: Ability to read in 9 foreign languages

Four-Tools-In-One:

- **Distance Camera:** Allows you to zoom up, get the big picture and store it all.
- **Instant Reader:** As the world's most powerful instant reading tool, our proprietary OCR software provides lightning fast performance for real-time reading. Keep books bound and intact while it scans and stores at a blistering 20 pages per minute pace.
- **Easy Magnifier:** Because sometimes all you want to do is see things larger such as medication bottles, envelope return addresses or photos.
- **Converter:** Take any saved page or book and convert it to multiple accessible formats.
