

High productivity for low vision.

Your lightweight, portable and personal instant reader, wrapper and magnifier.

Zoom-Ex

Your 3-in-1 solution

“ I wanted to let you know what a wonderful product Zoom-Ex has been for me. I have owned it for over 4 years and it still works as good as the day I pulled it out of its box. Because of its built-in flexibility, the Zoom-Ex technology allows me to do a lot more reading over shorter periods of time, freeing me to do the other things that I enjoy. ”

T.L., Phoenix

Introducing the world's fastest real time reading tool for multi-tasking users. Zoom-Ex is the seamless integration of an instant scanner with lightning fast OCR. It allows you to convert any printed text into multiple accessible formats including speech, large print, sound files and text files within seconds. And it's extremely easy to use; the foldable stand holds a 5 megapixel digital scanning camera that is always at the exact distance needed to create a clear image. Low vision users know exactly where to place reading material because the Zoom-Ex legs act as alignment guides.

Three powerful tools in one.

Instant Reader: As the world's fastest reading device – our proprietary OCR software provides lightning fast performance for real-time conversion of printed materials to speech (because sometimes all you want to do is listen). And you can save it all for instant replays anytime. Plus, it allows you to keep books bound and intact while it scans and stores at a blistering 20 pages per minute pace.

Text Wrapper: Provides you with the hands-free freedom to read wrapped text contained within your screen at font sizes up to 40X while it reads out loud to you. The result? Enhanced retention and understanding.

Easy Magnifier: Because sometimes all you want to do is see things larger such as medication bottles, envelope or product packaging.

ABiSee
So much easier.

Minimum System Requirements

- An IBM compatible personal computer
- 1.4 GHz Pentium or equivalent AMD processor
- 1 GB RAM memory
- 1GB free space on Hard Drive
- Two high speed USB 2.1 ports
- Microsoft Windows® XP, Windows® 7

Features

Easy: Place your printed material under the Zoom-Ex camera and press a key on your keyboard. Within a few seconds your document is read aloud

Lightweight and Portable: Weighs just one lb and folds like a tripod to travel in your laptop bag

Flexible & Adjustable: Alter reading speed, screen contrast, and font size to your preferences

Helpful: Highlights words as they are read

Useful: Enables user to print large font books

Fast: Scans up to 20 pages per minute

Accommodating: Place your document upside down, in landscape position, etc. Orientation of the page does not matter

Easy Scanner: Allows you to keep books bound and intact

Versatile: Convert any printed text into multiple accessible formats including speech, print, large print, sound or text files

Efficient: Provides fast forward and rewind capabilities

Multi-Lingual: Ability to read in 9 foreign languages
